**Date**

BACK FLOW REQUIREMENT NOTICE \*\* \_\_\_\_\_

PASSING B/F TEST RESULTS – READY FOR SERVICE \_\_\_\_\_

\*\* The Backflow Requirement Notice must be picked up, completed and returned to the Palmetto Water Treatment Plant, located at 171 East Palmetto St., Winter Garden, within 10 days of the date of the application.

**IMPORTANT – PLEASE READ AND SIGN!**

I \_\_\_\_\_, understand that the Back Flow Requirement  
 (printed name)

Notice serves as the Permit. I further understand that failure of the customer's or contractor's representative to complete and sign a Back Flow Requirement Notice, within ten (10) working days, from the date on the application, will cause the twenty-five (\$25.00) dollars application fee to be forfeited. If that happens, a new permit must be applied for, and new permit fee paid.

I also understand that installation of a backflow device, without the proper permit, is a violation of the City's Code of Ordinances and could result in additional inspection fees, disconnection of water service and or Civil penalties of up to \$500.00.
